# SQUARE COLUMN WRAP INSTALLATION INSTRUCTIONS

Step #1: Layout all pieces before starting installation to ensure the panel sizes and specific pieces are correct. There should be 8 pieces in total (4 corners & 4 flats).

Step #2: To start, place the first corner panel in place and slide down the flat panel, interlocking the sections.

Step #3: Once set, add the next corner panel in place by sliding it down to interlock with the already installed flat panel.

SQUARE COLUMN WRAP
INSTALLATION INSTRUCTIONS

Step #4: Continue these steps by adding the next flat panel, then corner panel, and so on until the entire column is wrapped.

Step #5: Once all panels are locked into place, the Square Column Wrap is complete.
