

1. Place the small plate inside the Pallet Caddy on the bottom. The holes must be towards the opening in the back.
2. Center the plate on bottom and drill (2) 1/4" holes through the Caddy from the inside. Using the holes in plate as guide.
3. Place the big plate between the Caddy and the top of the pallet truck. The wide section of the big plate must be toward the forks.
4. Install the j-hooks from below with threaded end up. The threaded ends will go up thru the holes and be inside the Caddy. Install washers then nuts inside the Caddy on threaded ends. Tighten until snug. Make sure unit is level to pallet jack. Adjust if needed.

Drill for 1/4" J-bolt
Self tapping screws (Optional)

HARDWARE LIST
